PROFILE

I am a qualified and professional software engineer with 4+ years of experience in one of the biggest firms in the world. I have worked on SQL, Python and ETL. Strong creative and analytical skills. Team player with an eye for detail.

EXPERIENCE

SENIOR SOFTWARE DEVELOPER AND ANALYST

Aug 2018 - Feb 2023 **ACCENTURE**

Have worked 4+ years with one of the biggest finance/asset management firms of USA as a client

Responsibilities include:

- Engaging with clients and understanding their business needs and providing solution to it.
- Analysing application data in order to find solutions to problems that may occur on a daily basis.
- Writing complex SQL queries and managing data of client in databases.
- Building new interfaces, editing existing interfaces, Job definitions, runETL configuration and database definitions.
- Have a knack for figuring out ways to automate repetitive tedious tasks using Python which has led to significant increase in productivity in my team. The hours of work per week this saved was recognized and appreciated on a higher level.
- Significant experience in documentation, end-to-end test ideation/creation as these have been part of my daily tasks for the past 4+ years.

CERTIFICATION

- AWS Certified Developer Associate certification.
- OpenEDG Python Certification(Entry level)

- Proven track record for on-time delivery.
- I have a demonstrated history of figuring out hard-to-debug issues.
- Apart from work I have also been known to organise team engagement activities.
- My friendly and cordial nature lead my colleagues to find me very much approachable for any work-related issue.

AWARDS

- 'Rising Star' award for excellent performance at an organisation level.
- Consecutively ranked 1st in all the three years of diploma.
- Won multiple awards in the project for saving numerous man hours.

PERSONAL STRENGTH

- Bold
- Confident
- Enthusiastic
- Good Presentation Skills
- Good Communication Skills
- Approachable
- Outgoing
